

Dear manager;

I send my CV to offer my services

Since March to June of 2012 I have worked as telecommunication engineer for Virgin Media Inc. in Bristol UK making my upper grade Erasmus practice.

My work for Virgin Media involved the following duties:

- Repair tv, phone landlines and Internet problems
- Install cable for new television, phone and Internet services
- Every job was done in houses or businesses

Before this job I studied in San Jorgue Institute in Santurtzi and completed an Upper Grade in Telecommunications and Computer Engineering, at the same time I worked in the call center of Euskaltel Telephone Company.

I have always enjoyed working with people and I think that my previous experience will allow me to work as part of your team and to be an effective representative of your company

I am available for interview at any time and could start work immediately. You can ask for references from my heads Peter Phillips and Rob Moon in Virgin Media and the heads of Euskaltel Telephone Company

Please find enclosed a copy of my CV and a certificate of my work in Bristol for more information.

I look forward to hearing from you

Your sincerely

Asier Quintana

Asier Quintana Camuera
