Each stop on your 14-day journey will be awe-inspiring. Euskadi will display its many sides: historic, artistic and scenic: with a stunning blend of local traditions and international buzz. When you travel through the Basque Country, every city and street offers something new, where you can indulge your appetite for art, music, and of course tapas. Museums will always maintain their fascination, but sometimes it's what is outside that really takes your breath away.

In my own life, visiting and living in the Basque country was an invaluable experience. My own "Basque" journey has not only enriched my life and shown me a different perspective, but it has also given me a higher respect for different languages and cultures.

Regardless of the degree of your personal connection to the Basque culture, visiting the Basque Country is an opportunity to widen your world view while experiencing a culture that is unlike any other.
