**Grammar Point:**

To give emphasis to any word in Euskara, all you have to do is repeat it.

Poz pozik egingo dut! I'd be more than happy to do it!

Txar txarto sentitzen da. He feels terrible.

On ondo itxi atea. Close the door really well.

Ixil ixilik sartu etxera. Go in the house extremely silently.

In this song, though lyrically beautiful to repeat the words gero and bihar, Pello is emphasizing that once she has done the chores, then she may rest.

I wonder what she is emphasizing by calling his name more than once...?
